Extracurricular Activities

SIH 2023 - I actively engaged in the Smart India Hackathon (SIH) 2023, achieving a commendable position within the top 10 during the internal level of the hackathon. I successfully competed against over more than 30 teams from my college, showcasing not only my technical skills but also my ability to present innovative ideas effectively. This experience enriched my knowledge and provided valuable insights into the intricacies of problem-solving within a competitive environment.

Ncc - I participated in the NCC program and received A-certificate .NCC offers adolescents the opportunity to enhance their personality and character through discipline, adventure, and physical activities.

Google Drive Clone - I participated in a one-week boot camp and cloned a google drive.
